

Students who enroll in remedial coursework (less than 100 level) may receive financial aid

Non academic grades do not carry points and are not used to calculate GPAs. No Pass or Fail grades will count as noncompletion of a course and will reduce the completion rate.

These courses are _____ by any type of financial aid

Students who totally withdraw from the university, after receiving financial aid, may be liable for refunds and/or return of Title IV funds. Additional information can be found in the University catalog or on the Financial Aid website.

Students receiving most scholarships, grants, or tuition waivers from UA are expected to meet the satisfactory academic progress requirements listed in this document. Some scholarships and waivers require a higher GPA for continued receipt.

Students receiving scholarships or financial aid from outside agencies, such as BIA, regional and village corporations, civic groups, and private organizations will be evaluated under the requirements of the funding agency.

Notifications regarding lack of satisfactory academic progress and appeal decisions will be emailed to the student. Academic progress can be reviewed via UAOnline.

A student in good standing who fails to meet the Satisfactory Academic Progress requirements will be placed on Warning for the first semester they fail and be re-affirmed.

1 Employee and Dependent Tuition Waivers
2 Private loans, grants and scholarships
